FORTINET

FortiVoice™ Enterprise Phone Systems

Available in:

Appliance   **Virtual Machine**

Centralized and Advanced Communication Features

The FortiVoice™ solutions accommodate efficient employee collaboration within a centralized, safe, and secured environment so your organization can provide the best customer service through a variety of our unique and advanced communication features. Powerful, affordable, and simple, FortiVoice phone systems have the strength to make call management easier in offices with up to 50,000 users. **With integrated voice, conferencing, and fax, FortiVoice empowers you to manage calls easily across offices, control communication costs, and stay connected globally.**

Rich Features for Optimal Collaboration

Enterprise-class communication systems with no additional licenses to buy or cards to install. Auto attendants, auto-provisioning, line/extension appearance, ring groups, user privileges, call queue, call barge, multi-location integration, and much more are built-in. FortiVoice all-inclusive system is easy to install and manage so you save the headache that comes with other phone systems.

Better Value from Your Investment

Unlike many PBX providers with hidden costs on advanced features or recurring subscription, which further adds up to the operational costs, FortiVoice comes with all calling features for everyone with simple and affordable pricing.

Simplified Management for Improved Efficiency

Centralized management system to reduce IT overheads and operating expenses. Configure and update your systems easily across multiple locations, monitor real-time performance and access call reports all from an intuitive management console. An additional mobile soft client helps your employees stay connected anywhere and anytime.

Always-on Connection for Business Continuity

Conjunction with FortiVoice Gateway, your system is secured with local survivability that helps sustain always-on communications, even when nature disasters or emergency events occur.

HIGHLIGHTS

Designed for Any Size Organization

Multiple Line Types	Support for PRI (T1/E1) digital lines, VoIP, and traditional analog lines depending on the model.
Multi-location Networking	Integrates multiple locations around the block or across the country with no long-distance charges.
All-Inclusive Features	Line/extension appearance, call queue, call barge, phone profile, ring group, call recording, rule-based dial plan, individual/group voicemail, conference bridge, fax, and much more.
Flexible Management	Multiple mode scheduling, flexible number management, re-assignable extensions, and caller ID modifications.
Ease of Configuration	Visual auto attendant config, built-in DHCP server, auto phone provisioning, web-based management, and user web portal.
Comprehensive System Monitoring	Real-time call status monitoring, call statistics, call logs, call reports, and network traffic capture.
Secure Communications	Built-in security features, policy management, and encryption options to safeguard conversations and prevent unauthorized access.

Deployment
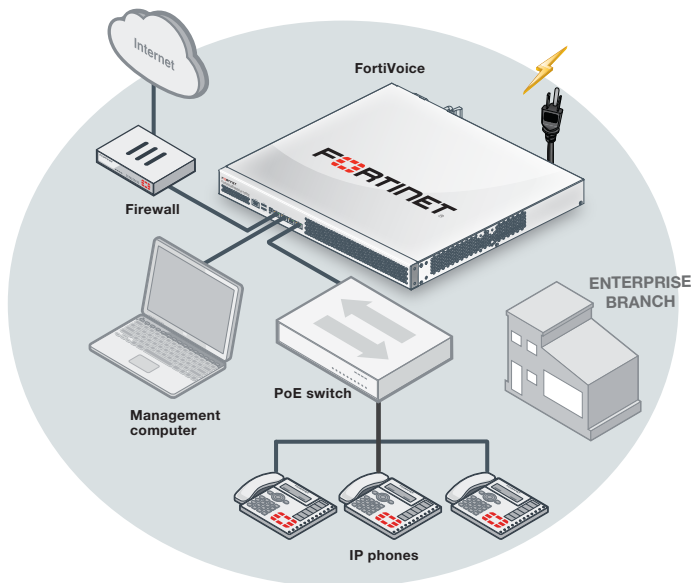

Easy Deployment

FortiVoice offers flexible deployment options that are best aligned with your business needs while maintaining the flexibility to customize systems and letting the priorities evolve expeditiously. FortiVoice is scalable in any size of the organization where the system can be deployed on hardware appliances, or in virtual machines. It is also ideal for distributed architectures including branch locations and remote users. By operating and managing your FortiVoice solutions locally or remotely, you have the visibility and centralized control to ensure that your communications are secure and always within uptime.

FEATURES

Core PBX Features

- SIP/PRI/PSTN trunk
- T1/E1/R2 signaling
- SIP/analog extensions
- Remote extensions
- External IP extensions
- Auto attendants
- Dial-by-name directory
- Individual voicemail
- Group voicemail
- Voicemail to e-mail
- Ring groups

- Call conference/bridge
- Call forward
- Call hold / transfer / park / pickup
- Paging to selected phones
- Intercom
- Follow-me
- Rule-based dial plan
- Scheduled call handling
- Direct inward dialing
- Caller-based direct inward dialing
- Caller ID modification

- Automatic hotline (direct call)
- User privileges
- Personal and system speed dial
- Personal blacklist
- Music on hold — audio files
- Music on hold — live stream
- Real-time call status monitoring
- Line/extension appearance
- Call detail record logging
- SIP over TLS/SRTP
- Password policy enforcement
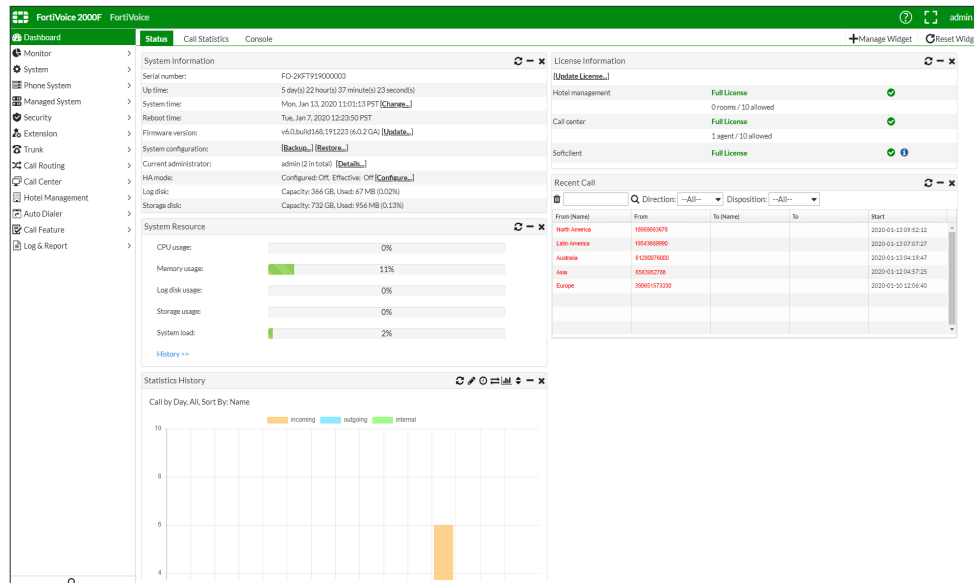

Advanced Features

- Fax over SIP/PRI/PSTN
- Fax to e-mail
- Fax archive and remote storage
- Web-based management interface
- Click-to-dial
- Automatic fax detection
- Auto-provisioning

- Web-based directory lookup
- LDAP authenticate
- Hot desking
- Virtual numbers
- Synchronizing phone book between multiple offices
- Multi-location: office peers

- Look up centralized phone book from phones
- Network traffic capture
- Enhanced CDR
- Alert email for system events
- Multilingual
